Experience

Senior Software Engineer

KAYAK - Cambridge, MA

2020 - Present

- Veteran developer on the Hotels team, leading feature development, organizing tasks, and monitoring experiment progress
- Led the project designing the new API for hotel details pages, porting architecture to React framework using React hooks and Redux
- Interviewing and mentoring junior developers
- Collaborating with product and design team to develop creative and user friendly solutions
- Running, monitoring and evaluating A/B tests
- Maintaining website health through monitoring dashboards and alerts
- Helping Hotels team balance new feature work with technical debt

Software Engineer

KAYAK - Cambridge, MA

2015 - 2020

- Extensive work developing and experimenting with new filters for our results pages
- Spearheaded cross team features, including integrating review keywords as smart tags for filtering hotels
- Developed and took ownership over features, tracking analytics and monitoring for errors
- Brainstormed improvements and took initiative during Hack Weeks to implement and run experiments for new user features

Software Engineering Intern

KAYAK - Concord, MA

Summer 2014
